

# INTRODUCTION TO WEB DESIGN CMP 2035

## 01 assignment

### YOUR FAVORITE DISH

Identify a recipe of one of your favorite dishes or a dish you would like to make. The recipe should contain at least a half-dozen ingredients and a half-dozen steps. Using what you've learned of HTML thus far, create a version of the recipe that includes the following HTML elements:

- » at least one ordered list
- » at least one unordered list
- » at least four links to other websites
- » at least three links to pages that might exist on the same website, if we were creating a website and it had a dozen recipes / pages
- » at least one link to an email address
- » at least one anchor

### OBJECTIVE

The purpose of this assignment is to get acquainted with HTML markup as a mechanism to define the structure of a document. We are not yet concerned with the *appearance* of HTML documents.

### DEADLINE

This assignment is due at the beginning of the next class. Please upload your HTML file to Slack, naming your file "01\_<surname>.html." For example, my file would be named "01\_baizman.html."

### WEIGHT

This assignment carries a weight of 0.7.

*NB: this is the only time we will upload an assignment to Slack. Beginning next week, we will post all homework submissions on GitHub.*
