02 assignment

THE CONFERENCE

Choose a topic for a fictional three-day conference and create a single webpage that contains the following elements:

» one or more tables with a schedule of presentations, workshops, and so forth, including the day, time, location, title of the presentation, and name of the presenter

» a Google map* for the location of the conference through an `iframe`

» a registration form for those who wish to attend

» `meta` information about the webpage

» HTML comments labeling each section of the page

» some HTML entities, where appropriate, if possible

OBJECTIVE

The purpose of this assignment is to expand your familiarity with the wide selection of available HTML tags.

DEADLINE

This assignment is due at the beginning of the next class. Please commit and upload your files to the master branch of your GitHub repository in a subfolder named "02 conference."

WEIGHT

This assignment carries a weight of 1.0.

*For the Google map, go to maps.google.com, enter an address, click the ☰ icon, and then click 🔗 **Share or embed map**. This will provide the necessary link for the `iframe`.
